INCIDENT# _____

****Remember**, it is important to leave a site undisturbed until a JPAC scientific team can visit the location. Our ability to recover and identify remains depends artifacts, wreckage, and bones being left in place.

****If artifacts or remains have been removed**, place them in a bag and write the **date, location, and the name and address of the person** who found the evidence on a slip of paper and place it in the bag.

****If artifacts or remains have been recovered in different places**, put them in different bags.

Attach or send us a photocopy of a local **map** with the location of any found material clearly marked. (This will help us to identify site size, boundaries, and logistical needs for mission planning.) Any photographs of the evidence or location should also be attached and logged below.

Attached Notes, Photographs, or Drawings:

See attached photos.

How many Photographs attached? 12

| Photograph Description | Date | Direction |
|--|------|-----------|
